# Orega-Cinn™

## Children's throat spray

### Cinnamon-flavored mycellized oregano oil plus hand-picked chokecherry

Orega-Cinn throat spray contains the same power as Orega-Cinn children's immune drops, with the addition of soothing wild cherry bark extract. It is potent to the extreme and gentle for sensitive children's throats. Even adults can enjoy its use. Take as often as needed. Plus, it tastes delicious. Spray in the mouth and throat generously. You can also spray on the roof of the mouth, tongue, and gums. The wild cherry bark, mycellized oregano, rosemary, black seed, and sage are the unique potent formulation's backbone. Peppermint, raw elderberry, and wild hand-picked chokecherry only add to its 100% pure natural profile. Enhanced with wild cinnamon, this is the most potent support spray for children's immune systems available.\* At North American Herb & Spice, we firmly believe your child deserves only the best natural products. Our complete kid-e-kare line exists to support all aspects of your child's specific nutritional needs.

**Kids Need Care** – Kids need powerful sources of nutrition. That's how they can have perfect health. They also need spiritual guidance and love. It's all here in *Kids Need Care*, a breakthrough nutritional book for a healthy family, by Judy K. Gray, M.S., a noted nutritionist and the CEO and founder of North American Herb & Spice.
